Why Nello's Matters

Nello's Pizza became AZeats' first restaurant client, beginning a relationship that helped launch the company into building hundreds of restaurant websites throughout Arizona, Colorado, and Southern California.

Restaurant Overview

The website presented Nello's as an award-winning neighborhood pizzeria built around the slogan 'In Crust We Trust.' It promoted family ownership, handcrafted recipes, and a friendly dining atmosphere.

Website Significance

The preserved homepage demonstrates the evolution of restaurant websites. Visitors could access menus, locations, awards, and gift certificates, illustrating how restaurants were beginning to embrace the World Wide Web as a customer service and marketing platform.

About the AZeats Historical Archive

The AZeats Historical Archive preserves early restaurant websites and recognizes the restaurants that helped pioneer the commercial use of the World Wide Web.
