Why This Restaurant Matters

5 & Diner became one of AZeats' featured restaurant clients. Its website demonstrated how themed restaurants could extend their personality onto the World Wide Web through graphics, interactive features, and consistent branding.

Restaurant Overview

Created in 1989, 5 & Diner recreated the atmosphere of America's classic 1950s diners with nostalgic décor, comfort food, burgers, fries, and hand-spun milkshakes. The website reflected that same energetic identity.

Website Significance

The homepage highlighted features that were innovative for the period, including online menus, maps, gift certificates, customer comments, and a virtual tour. Rather than serving as a simple brochure, the website became an extension of the restaurant experience.

About the AZeats Historical Archive

The AZeats Historical Archive preserves examples of early restaurant websites and recognizes Arizona restaurants that helped pioneer the commercial use of the World Wide Web.
