[MAP/COUPON](#)

Located in the center of downtown Phoenix, Sports City Grill and Sky Lounge are surrounded by all of the major entertainment venues.

Sports City Grill and Sky Lounge offers two distinct settings under one roof. The multi-leveled restaurant and entertainment hot spot cater to both families and the going-out crowd.

The street level of Sports City Grill reflects the ambiance of downtown Phoenix as it appeared some 90 years ago. The interior walls are built with bricks salvaged from the original business, a saloon, which stood in the very location in the early 1900's. Dark-stained oak furniture creates a comfortable atmosphere with modern light fixtures accenting the classic furniture and adding a warmth of a neighborhood restaurant.

The second level, Sky Lounge in principle was named because of the retractable roof that opens to the beautiful desert sky. Creating the perfect atmosphere for enjoying specialty cocktails, dinner and dancing.
